**Comments:**

re: NEW SECTION "WAC 44-14-07003 Charges for electronic records. An agency may provide a paper copy of an electronic record. Providing a paper copy is "access" to the record." This proposed section is unacceptable. In many instances, the original, electronic, record contains information which cannot be properly or fully represented in printed format. The public must be given access to all forms of any record, including the electronic format, on demand and without charge.
